Shaping the future of the insurance industry

## Reinventing the insurance industry

hr | equarium

Insurtech innovation pool

Hannover Re's exclusive online platform brings together insurtechs and digital innovators with insurance companies ready to shape the future of our industry.

Although insurtechs are offering a wide range of solutions and services, many of our clients find it challenging to cut through the noise in order to find the best-fit solution. Start-up insurtechs, on the other hand, require direct access to insurance decision-makers to market their solutions at lowest possible cost.

The hr | equarium platform is an innovation pool which facilitates partnerships between Hannover Re's insurtech partners and its global network of insurance clients.

Digital disruption, shifting demographics and evolving buyer preferences have created a challenging operating environment for insurers. Today, more than ever, product and distribution innovation are crucial factors for insurers to stay ahead of their competition and to meet consumer needs.

hr | equarium is the first-choice platform for insurers looking for solutions off the beaten path.
